

TECHNICAL DATA SHEET

Product name: BLU GRANDE
Product type: Precast concrete slab

Geometric characteristics

Dimensions (in.): height x width x length (dimensions include the joint width)

2 3/8 x 19 1/2 x 32 1/2 (60 x 495 x 825 mm)

Joint width: 1/4 in. (7 mm)

Approximate weight: 118.8 lbs (53.91 kg)

Dimensional tolerances¹

Length and width: -1.0 mm to +2.0 mm

Height: ± 3.0 mm

Warpage: ± 3.0 mm

Physical characteristics¹

Flexural strength: 650 psi (4.5 MPa) (min)

Freeze-thaw durability

Loss of mass after 28 cycles: 0.102 lb/ft² (500 g/m²) (max)

Loss of mass after 49 cycles: 0.246 lb/ft² (1200 g/m²) (max)

Americans with Disabilities Act (ADA)

Surface slip resistance²: slip-resistant surface texture

Surface opening³: joint opening size, 1/4 in. (7 mm)

Solar Reflectance

Color	Solar Reflectance	Solar Reflectance Index (SRI)
Champlain grey	0.23	25
Chestnut brown	0.23	25
Harvest gold	0.18	18
Mojave beige	0.26	29
Sandlewood	0.21	23
Shale grey	0.24	26

Notes

1. Meets and exceeds the requirements of the CSA A231.1 Precast concrete paving slabs standard.
2. Accessible paths shall be slip resistant. The above mentioned product is considered slip resistant and therefore complies with this ADA design guideline.
3. Accessible paths shall not allow the passage of a sphere greater than 1/2 in. (13 mm) in diameter. Paver's joint openings size complies with this ADA design guideline.
